## ecoFIT pure 800

High efficiency  
combination boiler

# COMBINATION BOILERS

- Best for two to four people
- Best for up to two bathrooms
- Cost-effective
- No need for separate cylinder or loft tank
- Prevents frost damage

## What are the advantages?

'Combi' is short for combination, because the boiler heats both hot water and provides central heating in combination.

A combi boiler heats water as you draw it from the tap. It doesn't need a water storage tank or a cylinder because the boiler's connected directly to the water mains, heating water as it's needed.

Combi boilers are best suited to homes with fewer than two bathrooms. Homes that need larger supplies of hot water are

usually better suited to a system or open vent boiler with a hot water cylinder.

Combi boilers are cost effective and energy efficient, with a compact size that's ideal for smaller properties where space is limited. Because there's no need for a water storage tank or a hot water cylinder, a combi boiler can free up space for conversion, storage and living.

## Key features

- The ecoFIT pure boiler has been awarded the Which? Best Buy 2016
- ErP A rated boiler with up to 94% efficiency, helping you to reduce your carbon footprint and save money on your fuel bills
- Highest quality aluminium which is designed for long life and easy maintenance
- Compact, with the option to fit a rear flue; the ecoFIT pure is ideal for a kitchen cupboard fit solution
- Quality German design and engineering which is manufactured at award-winning UK facilities
- Designed for a peaceful home, the ecoFIT pure is awarded the Quiet Mark for its reduced noise
- Simple and easy-to-use built-in control panel
- Compatible with Vaillant's vSMART™ app based control for heating on the go

## ecoFIT pure

High efficiency combination boiler range

The ecoFIT pure combination boiler is available in a range of power outputs to meet the heating requirement of every home.

All ecoFIT pure boilers offer low energy consumption and premium components to give outstanding performance. Each one is ultra-quiet, awarded the Quiet Mark for innovative reduced-noise design by the Noise Abatement Society, and designed for a peaceful home.

The ecoFIT range has a compact and lightweight design to ensure it can easily fit inside a traditional kitchen cupboard.

Dimensions	
<b>Model</b>	<b>825/830/835</b>
Boiler height (mm)	700
Boiler width (mm)	390
Boiler depth (mm)	295
